

# Latitude™ 9.5 Series

## High-Efficiency Gas Furnaces

### 33-inch – 95% AFUE

#### Saves Money While it Keeps You Warm

With a **Latitude™ 95%** AFUE gas-fired furnace, it's easy to cut heating costs up to 31% compared to most furnaces that are 20 years old. For instance, our hot surface ignition technology doesn't waste fuel like a standing pilot does. Self-cleaning Inshot burners precisely regulate the fuel mixture to ensure efficient, quiet and clean operation. And, a 100% shut-off main gas valve will completely turn off all gas flow to assure your safety.

#### Designed to Fit Almost Anywhere

Designed from the ground up to combine economy and efficiency in one compact unit, the **Latitude** furnace is housed in an optimized 33-inch cabinet, which makes it perfect for installations in closets, attics, garages and other tight spaces.

#### Safety First

For your peace of mind, we've included a long list of safety features: the computerized control system constantly monitors all functions — just to make sure.

#### Durability in Every Detail

Quality materials and manufacturing ensure that the entire system is built to last. The hot-surface ignition system is virtually maintenance-free. Our aluminized steel tubular heat exchangers are made to resist the corrosion and cracks which can develop in die-formed exchangers. And, the heavy-duty cabinet is made of pre-painted steel with an appliance-like finish which resists corrosion and fading.

#### Less Noise Is Big News

**Latitude** models use the latest technologies for quieter operation — like an insulated blower compartment to minimize heat loss and reduce noise in your home.

**Latitude models use the latest technologies for quieter operation**

Solid front door panel construction and folded metal edges improve durability

Advanced heat exchanger simplifies gas flow path and reduces number of parts

Compact 33-inch cabinet easily fits in tight spaces

Low flame sense indicator ensures safe shutdown in unusual firing conditions

Economical servicing thanks to a design using common serviceable parts

## Exceptional Warranties for More Peace of Mind

When we build a product this good, we're happy to stand behind it. So, we back each Latitude™ furnace with an exceptional limited warranty on the heat exchanger, and a 10-year limited parts warranty on all other components. To be valid, the qualifying product must be registered on-line via [www.upgproductregistration.com](http://www.upgproductregistration.com) within 90 days of installation.

### Extended Warranty

Ask your dealer about our extended protection plan. You can have complete peace of mind - with total labor coverage on your system for up to 10 years.

\*Qualifying product must be registered on-line via [www.upgproductregistration.com](http://www.upgproductregistration.com) within 90 days of installation.

### 95% AFUE High-Efficiency Gas Furnaces

Nominal CFM	BTU Input	Width* (inches)	Model Number
