

LX SERIES

TM9V HIGH EFFICIENCY 2 STAGE GAS FURNACES

When it's cold outside, everyone wants to relax in a home that's warm and welcoming. That's why we created LX Series gas furnaces, so you can take it easy when it comes to all the things you want out of a home heating system. Things like dependable performance, energy efficiency and operating economy. As a result, there's no reason to feel left out in the cold. And because it's built by York – the industry leader in innovative design – you know your system won't be down when you want some down time.

AMAZINGLY SMALL, YET POWERFUL!

COMFORT WITH A CONSCIENCE

These days, energy costs and environmental issues concern everyone. York® LX gas furnaces can reduce energy costs nearly 40% compared to furnaces that are 20 years old. And, with up to a 96% Annual Fuel Utilization Efficiency (AFUE) rating on our high-efficiency models, they have earned some of the highest ratings in the industry. You will also enjoy peace of mind knowing that your furnace is ENERGY STAR® qualified as one of the most energy-efficient furnaces you can buy!

SAVE MONEY WITH MINIMAL INVESTMENT

The LX furnaces feature a quiet, high-efficiency air circulating fan motor which operates at a fraction of the cost of traditional motors. As an added benefit, these motors can increase the overall efficiency of your complete York® heating and cooling system, saving you even more money with minimal investment!

SAVINGS YOU CAN SEE

Advanced York® LX gas furnaces are much more efficient than many older units. Add this benefit to greater reliability and reduced service costs, and an LX furnace purchase can pay for itself quickly.

CUSTOMIZES YOUR COMFORT LEVEL

Now you can enjoy custom comfort regardless of whether you live in a dry, temperate or humid climate. That's because York® two-stage models featuring variable-speed ECM fan motor include ClimaTrak™ technology that allows your installer to set an operating cycle that works best in a particular climate.

ClimaTrak™

HIGH-EFFICIENCY 2-STAGE GAS FURNACES AFUE 96%			
MODEL	NOMINAL CFM	BTU	WIDTH* (IN)
TM9V040A08MP11C	1,000	40,000	14 ½
TM9V060B12MP11C	1,200	60,000	17 ½
TM9V080B12MP11C	1,200	80,000	17 ½
TM9V100C16MP11C	1,600	100,000	21
TM9V100C20MP11C	2,000	100,000	21
TM9V120D20MP11C	2,000	120,000	24 ½

*All units measure 33" high and 29 1/2" deep.

GREATER CARE FOR YOUR INDOOR AIR

Two-stage models are available with a super-quiet, high efficiency variable-speed ECM fan motor which circulates air for longer periods at a fraction of the cost. Longer run times mean fewer hot and cold spots and longer periods of air filtering, resulting in cleaner and more comfortable air. Plus, fewer starts and stops make variable-speed models 24 times less noisy than conventional furnaces.

YORK WARRANTY

When we build a product this good, we're happy to stand behind it. So, we back each LX™ furnace with an exceptional limited warranty on the heat exchanger, and a 10-year limited parts warranty on all other components. To be valid, the qualifying product must be registered on-line via www.upgproductregistration.com within 90 days of installation.

Two-stage gas furnaces offer an immediate level of performance. Operation varies between first and second stage based on demand.
