

LX SERIES

YHJD 13 SEER HEAT PUMPS

Everyone wants time to relax and be comfortable. That's why we created LX heating systems, so you can take it easy when it comes to everything you want out of a home comfort system. Things like dependable performance, energy efficiency and operating economy. As a result, there's no reason to sweat the details. And because it's built by York — the industry leader in innovative design — you know your system won't be down when you want some down time.

THE ONLY THING SMALL IS ITS SIZE

DESIGNED FOR EFFICIENCY AND ENVIRONMENTAL FRIENDLINESS

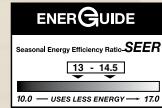

The LX Series heat pump, with efficiency ratings of up to 14.5 SEER and 8.3 HSPF, can make a dramatic difference in your energy bill when compared to most central comfort systems over 10 years old. And, it's available with environmentally friendly R-410A refrigerant, which reduces impact on the atmosphere.

COUNT ON QUALITY

Quality materials and manufacturing ensure that the entire system is built to last. The coils are constructed with aluminum fins for outstanding corrosion resistance. Plus, they're protected from impact by a tough, decorative grille. And, the heavy duty cabinet is made of pre-painted steel with an appliance-quality finish that is attractive and resists corrosion and fading.

- Compact, stylish design is specially finished to resist rust and corrosion
- Demand defrost system reduces energy costs by cycling unit into defrost mode only when needed
- Coils constructed of copper tubing with aluminum fins ensure durability and long-lasting, efficient operation
- High-pressure relief valve and solid core filter drier extend life of compressor
- Permanently lubricated fan motor reduces maintenance costs

MODEL 13 SEER	CAPACITY TONNAGE	DIMENSIONS (IN)		
		HEIGHT	WIDTH	DEPTH
YHJD18S41	1.5	28	34	34
YHJD24S41	2	32	34	34

YHJD36S41	3	40	34	34
YHJD42S41	3.5	40	34	34
YHJD48S41	4	40	34	34
YHJD60S41	5	40	34	34

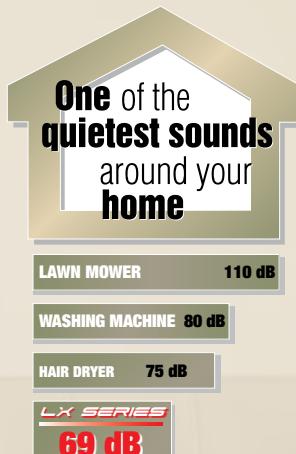

ENJOY THE QUIET

No wonder our LX systems have such low sound ratings. All moving parts were selected for quiet operation. Even the fan blades are designed to move air quietly. What's more, the upward airflow carries these soft, normal operating noises away from your home.

YORK WARRANTY

Every York® system includes a 10-year limited warranty on the compressor and parts as standard coverage. To be valid, the qualifying product must be registered on-line via www.upgproductregistration.com within 90 days of installation. Otherwise the parts warranty reverts to 5 years.
